Businessmen should adopt teaching concepts in Chinese portal

I am ecstatic about the launch of the new innovative Chinese teachers' portal (portal.sgchinese.innovative-teachers.com) which aims to be the resource and forum for all Chinese teachers in Singapore.

I think the timing is opportune for the teaching of Chinese to be improved. This is a definite step forward in the right direction.

I would like to take this initiative a step further by encouraging the various business organisations like SBF, ASME, SCCC to incorporate the teaching concepts from this portal to fast-track Singaporean entrepreneurs who want to set up a business presence in China and need better Mandarin communication and cultural skills.
